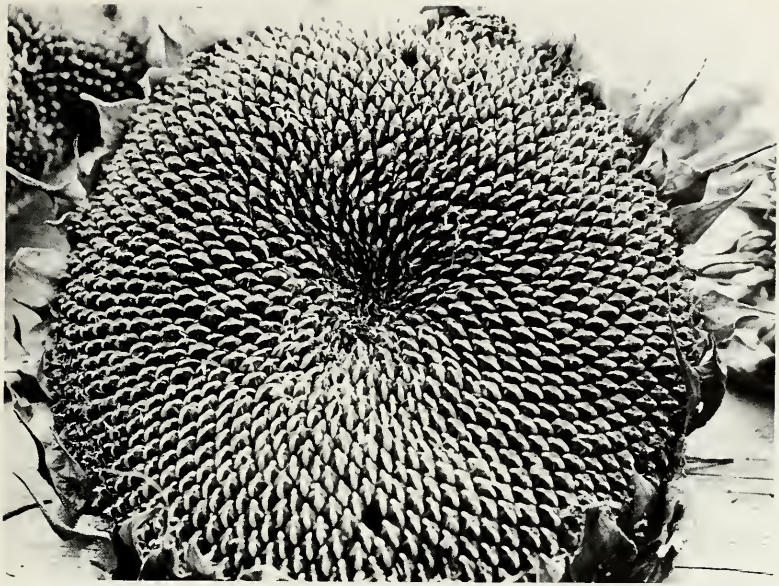
This is Benjamin + Jonathin Lyons' year book



"Be it decreed that, from this instant on
there will be sunflowers in all the windows,
and that the sunflowers will have the right to
open in the shade;
and that the windows must stay open the entire
day,
open to the green where hope grows."

Karen . . .

"Then Almitra spoke, saying, We would ask now of Death.

And he said:

You would know the secret of death.

But how shall you find it unless you seek it in the heart of life?

The owl whose night-bound eyes are blind unto the day cannot unveil the mystery of light.

If you would indeed behold the spirit of death, open your heart wide unto the body of life.

For life and death are one, even as the river and the sea are one.

In the depth of your hopes and desires lies your silent knowledge of the beyond;

And like seeds dreaming beneath the snow your heart dreams of spring.

Trust the dreams, for in them is hidden the gate to eternity.

Your fear of death is but the trembling of the shepherd when he stands before the king whose hand is to be laid upon him in token of honour.

Is the shepherd not joyful beneath his trembling, that he shall wear the mark of the king?

Yet is he not more mindful of his trembling?

For what is it to die but to stand naked in the wind and to melt into the sun?

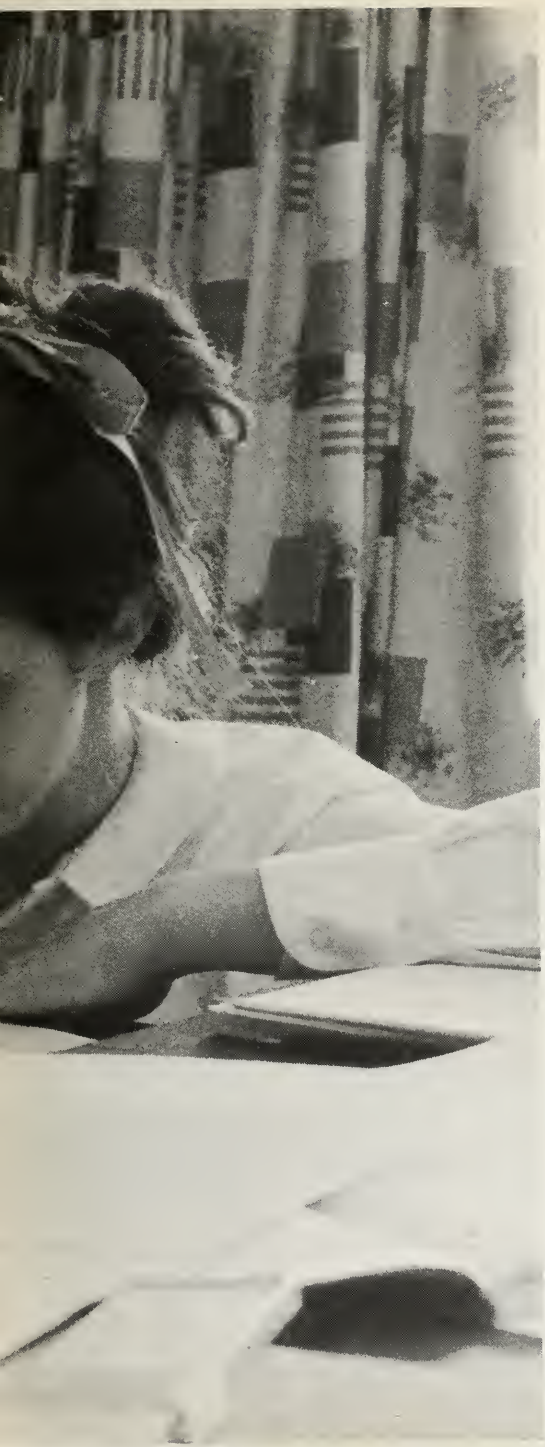
And what is it to cease breathing, but to free the breath from its restless tides, that it may rise and expand and seek God unencumbered?

Only when you drink from the river of silence shall you indeed sing.

And when you have reached the mountain top, then you shall begin to climb.

And when the earth shall claim your limbs, then shall you truly dance."

Kahlil Gibran



Faculty

"Be it decreed that now what counts is the truth,
that now what counts is life
and that hand in hand
we will all work for what life really is."

Happiness is the only good.
The time to be happy is now,
The place to be happy is here,
The way to be happy is to make

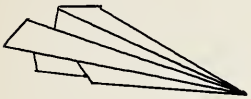
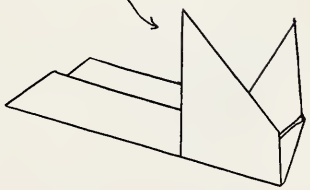
Robert Green Ingersoll

The construction of paper airplanes is unquestionably important.



This happens to be the most popular kind, probably because it's the only kind anybody knows how to make. But one time when Sally Starr was sick, Big Red Rex came on and showed how to make this kind.

BETI JACKSON



The fact that they fly no better, even when they are made of grade A* paper, doesn't matter. They look more impressive and people will smile ☺ at them, which happens to be what flying paper airplanes are all about.

JAMES ANDREW JARVIS

Who is he? He might not be a very memorable person, and you could easily forget him.

BUT, hundreds of years from now, when he has passed completely from your mind, you might see some object which would recall his visage.

You might see a clip-on bow tie,

or else a sponge ping-pong paddle,

or maybe a pair of mustard-yellow slacks,

or perhaps a red or a green duplicating stencil,

or even a pink kangaroo with a basketball,

and like a flash a mental image will appear, and you'll say to the person sitting next to you, "Hey, do you remember good old Bill MacDonald?"

DANIEL PAUL KEGEL

If you can dream - and not make dreams your master;
If you can think - and not make thoughts your aim,
If you can meet with Triumph and Disaster
And treat those two imposters just the same:
If you can bear to hear the truth you've spoken
Twisted by knaves to make a trap for fools,
Or watch the things you gave your life to, broken,
And stoop and build 'em up with worn-out tools:

If you can talk with crowds and keep your virtue,
Or walk with Kings - nor lose the common touch,
If neither foes nor loving friends can hurt you,
If all men count with you, but none too much:
If you can fill the unforgiving minute
With sixty seconds' worth of distance run,
Yours is the Earth and everything that's in it,
And - which is more - you'll be a Man, my son!

"But the Hebrew word, the word timshel – 'Thou mayest' – that gives a choice. It might be the most important word in the world. That says the way is open. That throws it right back on a man ... Why, that makes a man great, that gives him stature with the gods, for in his weakness and his filth and his murder of his brother he has still the great choice. He can choose his course and fight it through and win."

Vol. XVII, No. 2 June 12, 2000

CLASS OF 1970 - 30th REUNION NEWS

Good news from ALICE ROWAN this time - last Tuesday she became a grandmother! Congratulations, Alice, and congratulations, too, to your ninth son, Paul.

On February 12, 1999, NIELS HARBOE became an American citizen, and now works as construction supervisor for the Trojan Boat Company, commuting to Lancaster from Elizabethtown.

COLONEL ED KLADKY, U.S.M.C. is now fighting with our armed forces in Laos.

BETI JACKSON in the upper echelons of the business world, has become notorious in her shifty dealings involving the recent merger of the Douglas Aircraft Corporation with the Skippy Peanut Butter Company.

It was announced last month that MARILYN MILLER will retire from the United States Olympic Ski Team after 25 years of devoted service. As the oldest member of the team, Marilyn has accepted the position of U.S. Olympic Ski Coach.

It has been eight years since SARAH MICKEY left for the convent and we have heard nothing from her since then.

After the successful Mars landing, by the crew of Jupiter 12 in 1987, JIM MCQUEEN, who designed the landing module, was given complete control of the design for the planned Venus mission. Jim has written us to say that his plans will be based on the design of a craft he piloted many years ago: "It will be a coal black vessel, built neither for speed nor maneuverability, but for the durability needed to withstand months of brutal use."

PAULA LEICHT, the editor of the CONGRESSIONAL RECORD, has been too busy trying to include candids of the Senators in the Record to write to our correspondent.

Not much has been heard about ANDY JARVIS these days. After his prison break in 1998 it was rumored that he would stage a recoup, and the F.B.I. did indeed state that they believed it was he who organized the Great Denver Mint Robbery in October, 1999.

GINNY HOLLOWAY and Bennet Cerf got together to compile "The Complete Dictionary of Horrendous Puns", which appeared in April and is now a best-seller.

DETECTIVE SGT. JOHN CLEMSON of the Lancaster Police Force now moonlights as a barber in his spare time. The Sergeant writes that his 1941 Chevrolet Deluxe is nearing completion and will be on the road "any day now."

DR. DANIEL P. KEGEL, writing from Innsbruck, Austria, says that he received a government grant to continue his vital research on the stimulating effects of skiing on the human brain. Dr. Kegel will conduct his experiments upon himself.

BARBARA HESS, formerly an independent architect and now Lancaster's Chief City Planner, acknowledged her support for the demolition of certain buildings in downtown Lancaster, including the thirty year old Lancaster Hilton, at City Council meeting last week.

THE REVEREND DR. WILLIAM SCOTT, or "Bachelor Bill", as his friends call him, entered the ministry eight years ago and now preaches at the First Presbyterian Church.

Long-haired leftist rebel PAM LUCARELLI has persistently refused to "communicate with any right wing bourgeois tools of this military industrial society", and threatens to sabotage the offices of the Alumni News if we don't stop inquiring about her activities.

Dress designer MIKE HERR recently shocked the fashion world by returning to the styles of the sixties for 2000 autumn wear. High-heeled shoes, blouses, and hats now mark the trend in women's apparel.

If you have been reading your newspaper the past few weeks, you would surely have seen that DAME KATHLEEN SHENK was elected president of the Pennsylvania Chapter of the Daughters of the American Revolution. Dame Kate, as she prefers to be called, also received an honorary medal from the John Birch Society, for "preserving and instilling Democracy, Justice, and the American Way."

Lancastrians already know DR. JANE MOSS very well, for her successful performance in the General Hospital's first leg transplant.

JOHN MEARS, now completing his tenth year as Headmaster of Lancaster Country Day School, looks forward to another ten years of "stricter dress and hair codes."

the decade ahead

. . . will be one of realizing the potential which lies in our roots . . . a period of dramatic change for the entire globe.

Your school years have equipped you with facts, thoughts, questions . . . and some of the answers. Your search for more answers begins now. It is a search that will never end, for the world, with its expanding horizons, is growing further from the simple answer. The excitement and knowledge gained from the search are valuable and will lead to greater, deeper thoughts and understandings.

Know, too, that this search will inevitably lead to the answers of tomorrow . . . answers different from those of today. For tomorrow's world will be a changed world.

You, the graduating class, can claim possession of the roots of knowledge. It is these roots that will direct the rate and course of tomorrow's growth toward a better world.

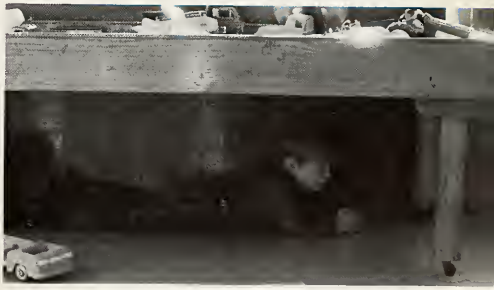
Bill Means



"Be it prohibited: the use of the word liberty,
which will be abolished from the dictionary
and from the deceptive mires of the mouth.
From this instant on
liberty will be something alive and transparent
like a fire or a river
or like a grain of wheat,
and its home will be forever
in the heart of man."

Quotations from "Statutes of Man" by Thiago de Mello as presented in the October issue of "motive" magazine Nashville, Tenn. Miss Gertrude Pax was the translator of the poem STATUTES OF MAN.
